

## **Edelweiss Speedway to present 2 enduro races in 2010!**

Cantley, PQ – Wednesday, February 3, 2010 – Martin Bélanger – Fans of Enduro type races will be happy to hear that Edelweiss Speedway will present 2 events in 2010.

In 2009, the end of year enduro was a huge success with nearly 200 registered participants and many of the drivers had expressed having more than one race during the years to come.

The first enduro is scheduled for Monday, May 24 during the Victoria Day with 50-lap feature races in the 4 cylinders, 6 cylinders and 8 cylinders with the first race set to start at 2pm. If the speedway receives sufficient registration for a ladies race, a 25-lap race will be added to the program. Pit gates will open at 10am for driver registration.

The date for the traditional end of year enduro is still to be confirmed, the mid-September week-end is probably the one that will be chosen with racing starting at 2pm. The same format as May 24 will be used with the pit gates opening at 10am.

Registration will again be 50\$ per car. If a driver decides to register an extra car in another category, it will be 50\$ for the second registration. Practice sessions are scheduled on Friday, May 21 during the regular program and a practice could be also scheduled for the September enduro.

Also, during the summer, Edelweiss will add some enduro type race with 15-20 laps in distance and give opportunities to drivers to test their car and racing abilities.

For more details, you can visit the speedway's website at [www.autodromeedelweiss.com](http://www.autodromeedelweiss.com) and consult the rules section for enduro type races.
